

MUNDO A SORRIR

Social Clinic Mundo a Sorrir

Guinea-Bissau 2021

Social Clinic Mundo a Sorrir – Bissau,

Guinea-Bissau

The limitation of access of oral health care services is a structural problem for the well-being of the populations of Guinea-Bissau.

For this reason, Mundo a Sorrir, implemented an innovative project, a **MEDICAL CLINIC WITH A SOCIAL SCOPE**, aiming to contribute to oral health and general health of the most vulnerable populations.

The social clinic is located in Bissau and it was powered by **ICD** – Internacional College of Dentists

Social Clinic Mundo a Sorrir – Results

In 2021 we achieved:

- 8 volunteer dentists
- 1176 beneficiaries of dental medicine
- 224 beneficiaries of general medicine
- 1618 dental treatments

Social Clinic Mundo a Sorrir – Training

and Referrals

In 2021, we supported local dentists by helping them providing dental treatments that they were unable to carry out due to lack of resources.

Also, we trained a Guinean oral health technician from a regional hospital through practical sessions, allowing a bigger number of the population to access dental care.

Social Clinic Mundo a Sorrir

Patients with disabilities

Through institutional partnerships, we gave opportunity to access oral health care to children with special educational needs, namely, blind children, children with mental disabilities, and children victims of human trafficking, from 3 institutions operating in Guinea-Bissau.

In Guinea, people with disabilities are often abandoned and mistreated.

Social Clinic Mundo a Sorrir

In Bissau, the majority of the clinics don't have x-ray machines, don't have basic materials and sometimes not even doctors

The Social Clinic Mundo a Sorrir is a reference in oral health in Guinea-Bissau.

In addition to treating patients from Bissau, it also attends patients from other regions of Guinea-Bissau, including the archipelago of Bijagós and many others.
