

## ICD President Gives Back in Mongolia

Again this year, newly-elected International President Akira Senda, of Section VII Japan, joined professors, ICD Fellows, dentists, hygienists and students from Aichi Gakuin University in Japan and Mongolia National University of Medical Science to provide charity dental services in Mongolia. This dental mission, led by President Senda, has been delivering oral health care treatments to hundreds of children and patients in rural areas of the country every August for the past 22 years. Lectures and hands-on seminars for dentists and students are also performed.

International  
President  
Akira Senda**

President Senda's dedication to ongoing altruistic efforts in Mongolia is emblematic of the ICD Core Values Humanitarianism and Leadership. It is because of passionate Fellows like Dr. Senda that the ICD has delivered a century of service to humankind through philanthropic projects and international goodwill.
