

Dear Fellows World Wide:

It is with great pleasure that I assume the chair of President for the College at Large on behalf of the International College of Dentists.

Let me wish you all good health and fortune in 2012.

Our College has many great attributes, with it's strongest being the diverse membership world wide and the many skills and talents that lie within.

Past President's Siroky's document, Project 55, outlines the many humanitarian missions the various Sections have accomplished over the last 5 years.

I believe the College is unique in this manner, such that we are an international dental organization, by invitation, that provides a large number of humanitarian services around the globe.

To continue these much needed services to those less fortunate we need to continue to inspire our Fellowship to contribute to these missions. We must continue to grow the Fellowship by inviting worthy candidates, and we should inform the public of our good works.

There are many ways to achieve the above goals and each of us individually can participate and our Council Committees will also work to accomplish the expansion and recognition of our humanitarian efforts. I too will work hard on your behalf. Thank you.

Garry Lunn
